SUMMARY

Enthusiastic and results-driven Front-End Developer with 3+ years of experience building responsive, scalable, and user-friendly web applications. Proficient in HTML, CSS, JavaScript, TypeScript, React.js, and modern front-end frameworks, with hands-on experience in developing enterprise-level applications and migration platforms. Skilled in creating clean UI components, optimizing performance, and delivering seamless user experiences with strong attention to design and usability. Adept at collaborating with cross-functional teams, solving complex technical challenges, and adapting quickly to new technologies and industry best practices. Passionate about building impactful digital products and continuously enhancing development expertise.

SKILLS

- Languages: **HTML | CSS | JavaScript | SASS | Java | C++ | SQL | TypeScript**
- Libraries & Frameworks: **React.js | Node.js**
- Databases: **MySQL | MongoDB**
- Software & Websites: **Figma | Bootstrap | Antd | MUI**
- Tools & Technologies: **Git | Postman | Yarn | API gateway | Powershell | M365 Admin Centre**
- MS Office: **MS Word | MS PowerPoint | MS Excel**

Soft Skills: Curiosity, Self-Starter, Perseverance, Collaboration, Communication, Adaptability

WORK EXPERIENCE

- **Agyom Pvt. Ltd.**

Analyst (Software Developer)

Dec 2025 – Present

Project: Migration Developer (Frontend Developer)

- Currently designing a migration management application using React and Python.
- Preparing technical documentation, workflows, and system architecture.
- Working on requirement gathering, UI planning, and application flow design before development phase.

Project: NTT Data Migration (Migration Engineer)

- Assisted in migration planning, execution, validation, and issue resolution.
- Coordinated with teams to ensure smooth and accurate data migration activities.

- **BrickRed Systems**

Associate Analyst (Software Developer)

Feb 2023 – Dec 2025

Project: Abdul Latif Jameel Finance (Frontend Developer)

- Developing frontend components using React with TypeScript, Redux, Redux Toolkit, Sass, and Yarn, focusing on creating a scalable and maintainable codebase.
- Implementing responsive design principles to ensure optimal accessibility and usability across different devices.
- Integrating advanced UI/UX elements to enhance user interaction and overall experience.
- Optimizing application performance and data management for a more efficient financial management process.

Project: Proflow (Frontend Developer)

- Developed frontend components using React.js, React-Hooks, React-Redux, HTML5, CSS3, and JavaScript.
- Integrated Antd and React-Flow to create an intuitive interface for workflow automation.
- Contributed to improving platform usability, resulting in a 30% increase in user adoption within the first three months of launch.
- Implemented responsive design principles, leading to a 20% improvement in mobile accessibility.

Project: Mentorpedia (Frontend Developer)

- Utilized React.js, React-Hooks, HTML5, CSS3, and MUI to develop frontend features for the Mentorpedia platform.
- Enhanced user experience, resulting in a 40% increase in mentee registrations within the first month of implementation.
- Optimized platform performance, reducing page load time by 35%.
- Implemented a seamless scheduling system, resulting in a 50% decrease in scheduling conflicts.
- Collaborated with the design team to create a visually appealing and user-friendly interface, leading to a 25% increase in user engagement.

Project: BrickNet Web Application (Frontend Developer)

- Contributed as a front-end developer for the BrickNet internal project.
- Developed frontend components using React.js, React-Hooks, HTML5, CSS3, and MUI.
- Assisted in creating Software Requirements Specification (SRS) and Functional Requirements Specification (FRS) documents.
- Collaborated with the team to create sequence diagrams and Entity-Relationship (ER) diagrams.
- Implemented user interface enhancements, resulting in a 20% improvement in admin page usability.

EDUCATION

2023	Bachelor of Technology I.K. Gujral Punjab Technical University, Main Campus -Kapurthala, Punjab • Electronics and Communication Engineering • 7.82 cgpa
2019	Intermediate (Science) - Indian School Certificate (ISC) • 76.4%
2017	High School - Indian Certificate of Secondary Education (ICSE) • 79.1%

ACCOMPLISHMENTS

- **Best Team Award** [BrickRed Systems], [2024-2025]
- **Rookie Award**, [BrickRed Systems], [2023-2024]
- NCC 'C' Certificate holder.
- Gold medal at **State level** shotput tournament.
